Soul Machines

Soul Machines is a groundbreaking company that allows you to harness the power of artificial intelligence to create astonishingly lifelike digital humans. These avatars, powered by advanced neural networks and machine learning, can interact with users in real-time, displaying human-like emotions and responses. What sets Soul Machines apart is their endeavor to bridge the gap between man and machine by crafting digital personas that genuinely resonate with human emotions.

Access Soul Machines

Soul Machines accounts can be obtained by reaching out to The Hub's project coordinator.

- Reach out to The Hub's program coordinator at **elp@uci.edu** and express your interest in Soul Machines.
- The program coordinator will reach out on your behalf to Soul Machines with your student information (name, UCINetID, etc.).
- Soul Machines will create an account for you and reply back to you and the program coordinator with instructions and details for accessing the software.

Benefits:

This new frontier of artificial intelligence and digital humans is worth exploring:
