UCI Students, faculty & staff are eligible for free membership in the Siemens Xcelerator Academy. Use this link for instructions on how to sign up: Siemens Xcelerator Academy: Academic Offerings

- **First Time Users:** Create an account using the “Activation FAQ instructions for students and educators” at Siemens Xcelerator Academy
- **Returning Users:** Use the “Verify Academic Status” link and start learning!

### The Siemens Xcelerator Academy

The Siemens Xcelerator Academy offers a comprehensive range of educational and training resources focused on the latest technologies and trends in digitization and automation. This platform is designed to cater to a diverse audience, including engineers, developers, and industry professionals. The academy provides access to a wide array of courses and certifications, covering topics like industrial automation, digital industries, smart infrastructure, and energy technology.

### Benefits

Gain hands-on experience with the Siemens software products across a wide range of applications, from electronic design and simulation to operations management and mechanical design, including these tools below and more:

- **Polarion ALM:** This software helps in unifying the software development lifecycle, offering real-time management data.
- **Mendix:** A low-code application development platform that aids in rapid building, deploying, and operating enterprise-grade software applications.
- **Insights Hub:** Focused on IoT solutions to optimize operations and drive new business models by connecting data from various sources.
- **Solid Edge - 3D CAD + CAM Pro:** All aspects of the product development process – 3D design, simulation, manufacturing, technical publications, data management, and more.
- **Tecnomatix Plant Simulation:** Digitalize manufacturing and the process for turning innovative ideas—from vehicles, aircraft and machinery to medical devices, electronics and consumer goods—into transformative products for customers.
